SUMMARY

Frontend Developer with hands-on experience building responsive, accessible, and performance-optimized web applications using React.js, Next.js, TypeScript, Redux Toolkit, and Tailwind CSS. Completed a frontend internship at Trade4Asia Pvt. Ltd., contributing to scalable UI components in a collaborative team environment. Currently expanding into full-stack development with Node.js, Express.js, and MongoDB, and building a production-style e-commerce application using React.js, TypeScript, and Next.js. Strong focus on clean component architecture, cross-browser compatibility, and translating UI/UX designs into pixel-accurate, responsive interfaces.

SKILLS

Languages: HTML5, CSS3, JavaScript (ES6+), TypeScript

Frontend: React.js, Next.js, Redux Toolkit, Tailwind CSS, Responsive Web Design

Backend (Learning): Node.js, Express.js, MongoDB, REST APIs

Tools & Workflow: Git, GitHub, VS Code, Chrome DevTools, npm, Vercel, Netlify

Concepts: Component Architecture, State Management, Cross-Browser Compatibility, UI/UX Implementation, Performance Optimization

EXPERIENCE

Front End Web Developer — Trade4Asia Pvt. Ltd. (Internship)

Jan 2026 – March 2026

Noida, Uttar Pradesh, India

- Built and maintained responsive UI components using HTML, CSS, and JavaScript, ensuring consistent rendering across Chrome, Firefox, and Edge.
- Collaborated with a cross-functional team of developers and designers to deliver frontend features on schedule in an Agile workflow.
- Optimized page layouts for mobile and tablet breakpoints, improving usability and consistency across device sizes.
- Participated in code reviews and used Git for version control in a team-based development workflow.

PROJECTS

E-Commerce Corner Store (React.js, Next.js, Tailwind CSS)

E-commerce-style storefront featuring product listing, responsive grid layout, and dynamic routing built with Next.js.

Live Demo: <https://corner-store-ochre.vercel.app/>

Current Weather App (JavaScript, REST API Integration)

Real-time weather application consuming a third-party weather API, with dynamic UI updates based on user location and search input.

Live Demo: <https://current-weather-app11.netlify.app/>

Input Data App (React.js)

React-based form application demonstrating controlled components, state management, and structured data handling.

Live Demo: <https://data-api30-07-25.netlify.app/>

Divyanshi Enterprises *(Live Client Project)*

Production website delivered for a live business client, focused on responsive design and cross-device compatibility.

Live Site: <https://www.divyanshigroup.co.in/>

Lustre Illumination *(Live Client Project)*

Production business website built and deployed for a live client.

Live Site: <https://lustre.in/>

Care Point Hospital *(HTML, CSS, JavaScript — PSD to HTML)*

Pixel-accurate conversion of a hospital website design (PSD) into a fully responsive, semantic HTML/CSS website.

Live Demo: <https://carepoint-hospital.netlify.app/>

EDUCATION
